

NOTICE

Are you feeding, watering, and providing an outside home for stray cats or do you know of someone who is??

Would you like some good “mouser” cats for your barn, garage, etc that have been spayed or neutered, have all their shots, been wormed, and have been deflead and deticked?

If you can answer “YES” to either of these questions please read on.

I am working with our local ARFS (Animal Relief Fund for a Shelter) to provide a service to homeless or stray cats in Glenwood. Glenwood has a surplus of feral cats and the only way to stop this is to spay and neuter the cats that are already here. I am working with Feline Friendz of Omaha who take cats to the NE Human Society free of charge for the services mentioned above. The cats have to be feral, (living outside, and not a family pet) but they are being fed, watered and sheltered on a consistent basis. I will trap them, take them in to the NHS and bring them back to you free of charge. The only thing you have to continue doing is providing food, water, and shelter for them. You can contact me at (402) 393-8914 (home phone) or e-mail me at topscat@msn.com. or Hofmanns@Glenwoodschools.org

Please help us in our quest to make every cat a “WANTED” pet.
